
From the Office of the Mayor

3/10/13

Residents of Slate Ridge Blvd,

Over the past year, a number of concerns about the issues have been brought to our attention of speeding and cars running through stop signs, specifically in the areas around Slate Ridge Blvd. and Farmsbury Drive.

Our next step will be a town hall at City Hall during the Community Commission meeting on Wednesday March 13th where the residents on Slate Ridge Blvd can discuss options. The doors will open at 6:20pm and the meeting will begin at 6:30pm sharp.

Please look at some of the potential options listed below in advance of the town hall. We are requesting that you rsvp so that we have enough materials prepared for the event. Email works best to gather the data, but you are welcome to call.

We realize that a number of the issues require personal responsibility of the drivers on Slate Ridge Blvd. in addition to efforts the city will make. Thank you for your patience as we try to address as many issues as possible.

Under consideration:

1. LED flashing Stop signs
2. "Your speed" digital posts
3. Speed bumps/humps

Addressing the speeding and stop sign issue will take time and cooperation between residents and the City of Reynoldsburg.

Joe Begeny
Mayor
City of Reynoldsburg
